RTM Change ☐   **Start New Baseline** ☐

Problem
Need Tivoli client, FLEXlm, iFOR/LS, specified licenses, and associated applications on two machines in order to allow MSS to demonstrate the license manager capabilities. In addition, HTSC support or sudo privileges will be required for portions of the demo and configuration. Please contact Rich Snyder (x4046) or Alex Schuster (x0519) for questions regarding configuration.

Proposed Solution
Install the following software on dipe1sun and slimer for test and demonstration purposes:

dipe1sun – FLEXlm server, Tivoli client, Discover or Builder Xcessory, Discover or Builder Xcessory counted license (1 or 2 licenses)

slimer – iFOR/LS server, Tivoli client, 1 HPOV concurrent access license (recommend rehost from milo)

Provide HTSC support or sudo privileges on dipe1sun and slimer for both product configuration and the actual demo.
